WWW.DECKFLEX.COM

TRUSTED PROFESSIONAL DECK WATERPROOFING SYSTEMS AND COATING PRODUCTS

- Tested for compliance with international building codes
- Class A and Class B fire-rated roof classifications
- Easy to apply, simple to maintain and low VOC
- Proven commercial and residential durability since 1985
- Beautiful surfaces with versatile design options
- Manufactured in the U.S.A. with high quality materials

OUR PROVEN SYSTEMS ARE BUILT TO LAST

- A. Metal Lath Layer:** strengthens surface and bonds with our proprietary cementitious layer
- B. TetraCrete TC3:** proprietary additive modified cementitious blend for proven protection
- C. Fiberglass Layer:** increased flexibility and improved adhesion with our proprietary acrylic base coat layer
- D. Base Coat Layer:** added durability and weather resistance
- E. TetraCrete Texture Layer:** beautifies and provides slip resistance as necessary
- F. Top Coat Layer:** improved aesthetics, color, surface protection and maintainability

DECK FLEX W.M. WATERPROOFING SYSTEM

This ICC-ES evaluated system for plywood surfaces is designed to provide maximum protection against the elements without compromising design aesthetics.

KEY BENEFITS:

Class "A" fire-rated classification, high traffic area tested, weather resistance, easy to maintain, beautiful aesthetics

DECK FLEX W.F. WATERPROOFING SYSTEM

This ICC-ES evaluated system is designed to provide lasting durability and protection without compromising ease of installation or design aesthetics.

KEY BENEFITS:

Class "B" fire-rated classification, weather resistance, easy to maintain, cost-effective installation, suitable for concrete or plywood surfaces

Beautify and protect your walkways, decks, roofs, balconies, patios and other surfaces.
